Episode 38 Notes/Journal Prompts

Aligning With Your Soul Mate Clients

Are you speaking to the people you want to be speaking to or the people who are currently in your audience?

When you work with the wrong clients, it dims your shine, it makes you question your gifts, you will begin to resent your clients and your work.

Believe in yourself first. You go first- clients follow.

What are they calibrating to?

Do they want to be in your space, take on your energy or have what you have?

Create relatability and connection with your ideal client.

Why would they want YOUR solution as opposed to someone else's?

(Remember, it's all about energy, alignment and integrity)

Are you asking them to do anything you have not done?

Are you in alignment/integrity with the work you are walking them through?

Uplevel your language and Speak to their SOUL.

Do they feel like you are reading their mind?

Logistically, can your current audience afford your products/services?

To Uplevel your ideal clients, you must uplevel yourself.

If you want clients who _____, you must _____.

Lead by example. You will attract the client you ARE.
